Across the US, RSV season varies over time and from location to location. Throughout much of the US, the RSV season begins in the fall and runs into spring. Local virology data can help determine the start and end of RSV season in a geographic region.

CONFIDENTIAL: This form is intended for internal office use only. This form may contain individually identifiable health information and is therefore subject to all applicable privacy laws and regulations.

BPD/CLDP = bronchopulmonary dysplasia/chronic lung disease of prematurity; CHD = congenital heart disease; GA = gestational age; SPP = Specialty Pharmacy Provider; PAF = patient authorization form.
